

Visions

Question: do you know anything about Ernie Knoll who claims to have visions?

Reply:

Such cases require careful thought and testing of the 'messages'. I believe that the guidance of the Holy Spirit is with true believers and they will often have dreams or 'snapshot visions' to give them directions or information. I have this myself and have had for years. But the true prophetic gift to the church is different and I believe is fully provided in the SOP writings. God would not send another church-prophet when the church as a whole has neglected to study what He has provided and most of them--including the official levels have 'made the testimonies of none effect'.

IF there were a church prophet from God the several hours without breathing phenomenon would be present. This is something that Satan can't counterfeit--he can make people look as though they were not breathing but careful checking will prove it false. Only God can sustain life in a person who is absolutely NOT breathing and only God's prophets can SPEAK in vision when not breathing.

The sign has to be witnessed and attested to medically--not just the so-called prophet claiming it happened. If it is a church prophet-- they will have all or most visions publicly where the evidence can be checked out.

ALSO the messages will agree with all prophets who have gone before--including ALL EGW's writings. There are rich mines of truth in the SOP that we have never even fully explored! Everything needed to take us through to the kingdom is found there with a little guidance from the true Author--the Holy Spirit. For several months I have been prayerfully reading Manuscript releases- a wonderful source of information I never knew before.

God Bless!
