

More About Secret Plots:

A chart of the main Bible Time Prophecies and how they fit into history and point out the End Times, is at the end of this lesson. As we said, the devil studies prophecy too, and although he does not have the Holy Spirit to help him, he can figure out the dates when the Lord is planning certain actions. He also reads the Spirit of Prophecy too. He is a most intelligent being, but his mind is focused fully on evil and hatred of God. Roger Morneau shared what he was told by the high priest of spirit worship, that as Satan saw these prophecies coming to an end, he held a counsel with all his high-up spirit counsellors to plan what they would use to counteract God's end-time movements.

At this counsel they made 3 main plans, first to cause the world to think that he and his angels actually do not exist. You do not resist and fight an enemy you do not even believe in. We will look at some of the ways they do that. The Second part was to find ways to get control of people's minds through hypnotism and Mesmerism and there are many other similar methods used now too, The third point in the plan of Lucifer and his spirit counselors, was to destroy the Bible, without burning it. We will look at ways he uses to do these three things that he developed in the early part of the 'time of the end'.

This one does all three. Franz Anton Mesmer was an Austrian physician and Freemason, whose method of "magnetic healing" was based on alchemical principles [Alchemy was an ancient mix of philosophy, chemistry and occult ideas] and led to the development of hypnotherapy (1734-1815), He developed the theory of 'animal magnetism' as well as a related style of treatment that came to be known as Mesmerism.

He thought that there was a natural energy transfer that occurred between all animate and inanimate objects that he called "animal magnetism". He said that this influence known as mesmerism, or animal magnetism, or fluidum was related to an invisible substance--a fluid that runs within the subject or between the subject and the therapist. He claimed it's possessed by all living things, including humans, animals, and vegetables, and that the force could have physical effects, including healing. It uses mainly non-verbal actions like gaze, fascination, passes (strokes) and other methods to cause a trance and affect the body's energy balance.

His idea of a type of power or energy that a person can have in them, which comes from some sort of energy field and can be used, manipulated, and directed to treat other people, we see in all kinds of other therapies today, as well as in the occult. Witches and sangomas believe that certain charms or objects contain power and they themselves can have power within them from doing certain actions or saying or chanting special words. In much of the world, these powers are thought to come from the mind of man, or some think it comes from objects in nature, or the stars, or cosmos.

The one thing all these ideas have in common it they tend to make people think they are 'sciences' and if told the truth about them, that the power all comes from demon spirits, they think you are 'superstitious' and foolish. All these theories cause people to believe there are no such things as demon spirits and that idea was just from ignorant people in the past. The idea of something being evil and wicked, as well as dangerous to the soul, is just laughed at. So this accomplishes part 1 and 2 of the plan, what about 3?

It also attacks faith in the Bible and Christianity in several ways. Many of those who practice these various kinds of 'Sciences' and 'Therapies' claim that this is the same method that Jesus used to do His

miracles and He taught them to His disciples. So He was just an ordinary man who had learned and mastered some of these sciences, and it had nothing to do with God! So who would bother reading the Bible if they believed and practiced something like that?

Dr Mesmer's 'therapy' was very popular in the early 1800s in Europe and really world-wide. It was accepted and practiced by rich and famous people, writers, [who then wrote fiction that promotes the occult] high level church officials, even royalty. So stop and think about the kind of opportunities this made for Satan to promote his hellish plans and sciences. As some of these people experienced mesmerism, even as children, it opened doorways for demonic influence in their minds and lives. I was shocked to learn you can actually take courses in Mesmerism and get certified in it, even online!

He then used some of the people exposed to these hypnotic therapies to promote others of his wonderful 'sciences', new and old, such as evolution. Darwin was hypnotized as a child. The idea of being able to communicate with the dead, [Ye shall not surely die!] The idea that there are various levels in the afterlife and some of the beings that would communicate with them were 'ascended masters' from higher levels, actually types of 'gods'. [Ye shall be as gods!] They do not mention Jesus or God, and if asked, they claim Jesus is on a lower level than they are and they never see Him!

Then too, as these people were coming out of the dark ages where the Bible had been unavailable to most people, they got into many 'sciences' all connected directly or indirectly with the occult, and then they wrote books, other people studied the books and thought the ideas new and wonderful, so very quickly for many rich and influential people, belief in the Bible was something to be scoffed at. Evolution showed them that God was not needed, man was his own creator, through millions of years.

Spiritualism showed them that man has an immortal soul that lives on, and may be reincarnated in another life, or go onto higher levels of existence! So these lies also do away with belief in the Bible and the Gospel! Spiritualism and evolution fit together like a team, each helping the other. Sadly too in our modern times, nearly all of the popular medical industry believes in and is based on evolution and the occult is part of what they promote too! 'What?' you say, "How does modern medicine promote the occult?" in many ways!

First we already saw these discoveries of Mesmerism, Hypnotism, and the so-called 'mind sciences' these are totally or partly occult. Then there are the very widely acclaimed, practices of Yoga and Eastern Meditation! Sadly, many doctors that are promoting a healthy whole plant diet, [one of the things the Lord gives us] and yet they encourage these eastern occult practices that come from Hinduism and idol worship. In fact, at least in my part of the world, nearly every picture referring to 'health' shows some half naked woman sitting in the 'lotus' posture and meditating! [Instead of doing her housework and caring for her family]

Yoga is a form of exercises, the stretches and exercises, like the whole plant-based diet, are good, but Yoga is a problem because of the 'theory' and teachings that go with it and the fact that meditation is mixed with it. The teachings are based on similar occultism as mesmerism and come from Hindu idol worship! Meditation is the process of sitting and trying to empty the mind of all thought, so that one can receive 'enlightenment' from the 'Cosmic consciousness'. In other words, demonic spirits will take over and place thoughts in your mind, just as they do in hypnotism and such practices! It also teaches there are some hidden forms of knowledge and power that one can learn to tap into in our bodies and minds. This again is just as demonic as witchcraft. There are other ways of learning stretches and doing exercises for our health, so stay very far away from Yoga and all its cousins!

Now we will look closer at the Big Plan to get Christians away from the true Bible and into corrupt ones that promote doubt instead of Faith in God! We got much of the story in part 1 of this lesson, but how do these 'revised' Bibles affect an ordinary Christian? Back in the 1980s, I had graduated as an RN nurse and had come to the only Adventist Hospital in Canada to work. [There are none here now] I did not know about the Bible Battle issue back then, so I saw this lovely NIV [New International Version] Study Bible all full of charts and lists and special things, and I thought I will get this and study some every day! I believed I would be doing good that way, so it got it and started to study.

Very quickly I came across footnotes, everywhere in this book, "this text is not in the 'most reliable Mss.'" Missing verses, words, sentences, and whole sections changed and missing! It was only a short while and I was so confused and discouraged that I stopped reading it at all and put it aside. Shortly after that I decided to explore into New Age practices like Martial Arts [I was already in Yoga] and basically was not solid in the Advent faith any more. One thing I never did though was that Eastern Type meditation. I would sit with the class but I would be praying to the Lord in my mind, not trying to empty my mind! I thank the Lord for that!

Truly, these revised 'bibles' create doubt and not Faith. Later my faith grew up when I learned to put full trust in my AV Authorized Bible and the precious Spirit of Prophecy writings. By the way, the title 'King James Version' was invented by these people who hate and criticize it. They wanted to make it look like some king wrote it. The real title is The Authorized Version from the Received, Majority Text. It is so amazing that most people, including myself, were taught that these things they 'discovered' were the 'oldest and best' Bible scripts and they are basing all the false modern Bibles on them. And yet they are fakes and forgeries made in the 1800s and part of the devil's occult plan being carried out by Rome! I was stunned to learn these things!

So what was our Lord and Saviour doing during these times that would serve to protect and warn us from these false movements that were sweeping the world? We will review briefly how things shaped up at the start of the Great Advent Movement in the mid 1700. Now Jesus warned about those terrible Dark Ages, that terrible 1260 year time when Rome would rule and persecute Bible believing Christian viciously, He called this the 'Great Tribulation'. Here's what He said: "For then shall be great tribulation, such as was not since the beginning of the world to this time, no, nor ever shall be. And except those days should be shortened, there should no flesh be saved: but for the elect's sake those days shall be shortened." Matthew 24:21, 22. This time period was from 538 AD to 1798.

We see this persecution was so terrible that unless God did something to shorten it, all 'flesh' that is all true Christians would be destroyed! Some of the things that the Lord brought about during that time that helped was the reformation that was brought about as the people started to manage to get hold of the true Bible. Then when the Papal armies were about to wipe out the Protestants, often the Islamic forces would invade Europe and the armies had to stop chasing the true Christians to fight Islam! Then the discovery of America resulted in many true believers fleeing to the new lands, away from the power of Rome! In 1755 came the Great Lisbon Earthquake and after that, persecution had pretty much ended.

So then the mighty power of the Holy Spirit began to impress minds of Bible believers all over the world to study into the prophecies of Daniel. Remember Rome and taken away and destroyed the Bible during those Dark Ages, that is why they were dark! Without the Bible people just slide into ignorance, so now as the Bible was again available, and the true Bible at that, people were able to

explore it. As they did, they discovered the time prophecies and began to realize that they were pointing to an event in the near future most thought was the coming of Jesus.

The Lord sent many signs and power to the Great Advent Movement at that time. This is when the 1st Angel's message was sounding world-wide. In America, the Lord led a man named William Miller to deeply study into the Bible and as a result in 1831 and on he began to preach the coming of Jesus was very close. It was from the Millerites that eventually the Seventh-day Adventist church arose.

After the Great Disappointment when Jesus did not come on October 22 1844, God restored the Spirit of Prophecy to the tiny Advent movement and chose Sister Ellen Harmon, a young girl, the 'weakest of the weak' to serve as His special messenger. This was a much needed gift to enable the tiny movement to be able to move ahead against the evil occult plans of the devil at the same time!

So God's true believers now had the true AV Bible of the Protestant Reformation [KJV] and the restored gift from the Holy Spirit, the Spirit of Prophecy, to help them to figure out and understand the true Bible Prophecies by comparing text with text and allowing the Bible to interpret itself. When something became too confusing for them, then the Lord would show the answer to Sister Ellen in a vision as she met with them. the visions were public, not somewhere in private with her making up things to tell them! Piece by piece the message for the end times was uncovered including the understanding of the work of Jesus in the Heavenly Sanctuary!

Most of these teachings are only known to the true Advent Believers we call 'Historic Adventists' who stand on the messages of God given to the church back in its beginning, where the official organization has discarded most of them. Why? Because of the sneaky influence of the devil's occult movements and not trusting fully in the Bible and the Spirit of Prophecy writings, but thinking they are smarter now and know better and do not need those old ideas any more! We will explore more in other lessons. God Bless you all!
